

California High-Speed Rail Authority

**Additional Questions and Written Responses (in regards to the Responses to Written Questions) on RFQs HSR06-0003, HSR06-0004, & HSR06-0005:**

Q. I have just learned that our corporate financial statement runs to 10 pages, including the footnotes (which must be included). Thus, the total page count for the "Financial Responsibility" section alone comes to 13 pages (including the certificate of insurance and statement of overhead rate), and we must provide the similar information for the three principal firms on our team.

I apologize, in that I realize we should have clarified this point earlier, but must ask whether we can also exclude the "Financial Responsibility" section from the 60-page limit.

***A. We will not count the "Financial Responsibility" section as part of the 60-page limit for the reasons you have described.***

Q. I am putting together a submittal for the aforementioned RFQ number and would like to know if you would send me the Word or Excel files for the Standard Form 840, or perhaps you could give me the link to where they reside on the CA HSR website.

***A. Please see the attachment for Standard Form 840.***
